

ZONEWORKS®

Insulated Pallet Covers

Maintain product temperatures throughout your supply chain with durable, custom-designed covers.

Portable product protection

Zoneworks insulated pallet covers offer these unique benefits:

- Flexible, insulated structure helps maintain proper temperatures of heated or cooled product
- Lightweight, collapsible design and handles make use and storage easy
- Heavy-duty, multi-layered construction provides durability over time
- Industrial vinyl cover is fire retardant and meets NFPA-701 standards
- Insulating polyester batting is anti-microbial
- Custom materials, colors, sizes and designs available.

Zoneworks' team of design and application experts will evaluate your product protection needs to create state-of-the-art pallet covers for a wide variety of uses, and provide turn-key support throughout the process.

Zoneworks specializes in the design and construction of flexible, modular wall systems and other products, for a vast array of environmental control and separation needs. Zoneworks is part of the Rite-Hite family of companies, all focused on leading-edge technology and innovative alternatives for industry's toughest challenges. Zoneworks products are manufactured proudly in Dubuque, Iowa, USA.
